## What are special band stamps?

Often the need arises for a band stamp which is not carried in stock and cannot be made up using all stock bands. Such stamps may require letters, numbers, symbols, words, or even phrases.

You may order bands that meet your individual needs and have them assembled into a stamp, with or without additional stock bands.

These extra long stamps provide room for 28 characters on each band. The four stock bands shown on the left can be assembled in any order required in sizes No. 00 through No. 3.

"Alphabet Stamp" is the common term for a stamp assembled entirely with letter bands (see styles "V" and "R" at left). Used where coded lettering or complete words are to be stamped.

The term "cost and selling" applies to these stamps when alphabet and number bands are combined. These stamps are commonly used by merchants to show a code cost price along with a selling price.

To order, specify: (a) type size, (b) number of bands, and (c) style number of bands in the order you want them.
